

WRPS is pleased to announce our adoption of a BYOD - Bring Your Own Device program to our schools. Students are encouraged to bring their own chromebook to school each day. This is an optional program and our school staff are working through some details to make this happen in our school. WRPS has partnered with Staples in Camrose and Leduc as one option for purchasing a chromebook and they can offer 6 or 12 month payment plans with zero interest. If you are interested in purchasing a chromebook for your child to use at home and at

school please go to our [BYOD Website pages](#) or more information.
